

Letter of Reference for International Student Exchange | Medicine

When students apply for international student exchange programmes and/or internship abroad, they need to attach a "Letter of Reference/Recommendation" from a person related to Karolinska Institutet.

As an exchange student from KI, the student represents Karolinska Institutet. The International Committee for Medicine therefore wants to ensure that any student nominated for exchange studies has the ability to act as good ambassadors for KI at our partner universities.

If you would like to be the reference for a student who is applying for exchange studies abroad, please answer the questions below.

Name of the student	
"Personnummer" of the student (Swedish Social Security Number)	
Your relation to the student	

I believe that the student named above during my course/clinical placement at KI has performed well academically and socially YES NO

I believe that the student named above has good opportunities to carry out an exchange study period abroad YES NO

I believe that the student named above will be a good representative of KI at the host university YES NO
